## The Four-Way Test

Is it the truth?  
Is it fair to all concerned?

### Last Week's Program By Our Own Member **Bill Bauers**

This talk was about his experiences during WWII flying the Army Air Corp B-26 Marauder. The B-26 was a twin engine medium bomber and at the time quite a hot aircraft. Before they extended the wings ten feet it was very hot, especially landing. They use to call it the Baltimore prostitute as it had no visible means of support. At Mc Dill Air base in Florida they called it **One a day in Tampa bay**. Later it was much better and a great handling plane. *Bill* did a great job with visual slides and afterwards he got a standing ovation. That's unusual! But after 65 missions, I would say he deserved it.

### Mary Ann Karau's Attendance Quote for Today

"If it wasn't for Phil T. Farnsworth, inventor of television, we'd still be eating frozen radio dinners." (John Carson) Try to attend our weekly Rotary meetings where the food is as wonderful as the fellowship and speakers.

### Our Rotary Web Site is up to Date

Your webmaster has done lots of work on the site last week. All members have been checked for their entrance to the site and now can check out every part. The Board members and committees are up to date and also our monthly calendar. Please use this site as there is lots of information about our club. If you have any problems or suggestions please contact Jack Bogle ([jbogle1853@aol.com](mailto:jbogle1853@aol.com)).

### We had Lots of Guests Last Week but no Visiting Rotarians
